### Newspaper

Newspaper is one of the oldest form of media in the world. We can get varieties of news easily at our home through newspaper. It is a great source of information. Newspaper is published mainly on daily or weekly basis but there are also many newspaper which have monthly or quarterly publication. It covers the articles attached to the different subjects of our life. These are politics, sports, education, culture, entertainment, business, horoscope, quiz, essay, weather forecasts, employment related articles etc. Newspaper is a very powerful medium of spreading information among people. It is an ideal source to know the current affairs. Nowadays internet has replaced newspaper as we can get all the news from internet. But the news we get from the internet are not always authentic. So it is only the newspaper which provides us the authentic and verified informations of the world. In today's digital world, we are going far away from the habit of reading. But still there many people who start their morning with a newspaper in our society. Each and everyone must ensure to practice this habit of reading newspaper in their daily life. Thus, the newspaper plays an important role in every step of our modern life and society.
